

ColorMax® Vehicle Graphics

Putting attractive graphics on a vehicle is a very cost effective way of communicating to the public. Because there is a huge variety of graphics and vehicles, every job will be different. We must examine your vehicle first. We have, however, examples below to give you some idea of what you might expect to be charged by us to print to 3M Controltac (the gold standard for vehicle graphics), laminate & install graphics on your vehicle. These prices don't include: design, cleaning, removal of graphics or any repair work. All prices are estimates.
